Johanne D'Auray

1. When an expert or a certified geologist identifies the mineral as a diamond. (We are a little unsure of the phrase "come into being".) Please clarify
2. That the diamond was mined from Canadian soil.
3. The purchasers expectations when they buy a Canadian Diamond is that the stone is mined in Canadian soil and cut in Canada
4. It has not been the practice of the industry to provide the origin of the diamond or other stone, but we feel this is an very important selling feature when selling a valuable stone.
